## **RESCIND BOIL WATER NOTICE**

**Date: May 1st, 2026**

Attention Hubbard City Water Customer,

On April 29, 2026, the Texas Commission on Environmental Quality required the City of Hubbard public water system, PWS ID: 109002, to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system, used for drinking water or human consumption purposes, and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of May 1st, 2026.

If you have any questions, contact Matthew Cole, City of Hubbard Water Operator, at 254-283-4292.

Thank you for your patience and cooperation as we work to restore full service and ensure the safety of our water system.

Sincerely,  
**City of Hubbard**
